

Privacy Policy

Jump Start Stores provides a venue by which merchants can offer discounts to consumers and consumers can, in turn, locate merchants they wish to patronize and take advantage of the discounts that the merchants offer through Jump Start Stores. To operate this service, Jump Start Stores necessarily must collect certain information from merchants and consumers.

Jump Start Stores maintains a firm and continuing commitment to the privacy of personal information provided by those that visit and interact with our websites, and for those that register and become members. We hold the privacy of your personal information in the highest regard. The following Privacy Policy, which discloses our information gathering, retention and dissemination practices, applies to all use of our Mobile Application and the Website (the "Website" includes but is not limited to any and all domains and extensions).

We recognize the importance of protecting your privacy and our policy is designed to assist you in understanding how we collect, use and safeguard the personal information you provide to us and to assist you in making informed decisions when using our site. This policy will be continuously assessed against new technologies, business practices, and our customers' needs.

What Information Do We Collect?

When you visit our website(s) or use our Mobile Application, you may provide us with two types of information: (1) Personal information you knowingly choose to disclose that is collected on an individual basis and (2) Generic website usage information collected on an aggregate basis. If you visit us from another site (e.g., click through us) you have the option of remaining individually anonymous to us throughout your visit.

1. Personal Information You Choose to Provide

Registration Information

When you register for any of our products (including our Mobile Application), services, or newsletters you will provide us information about yourself.

Credit Card Information

If you choose to utilize our services, you will need to provide information to a Credit Card payment processing enterprise. Payment transactions are managed by a third party (e.g., PayPal, Stripe, etc). We neither collect nor maintain credit card information. We cross-reference an Order Number with our payment processor in order to resolve any potential disputes.

Email Information

If you choose to correspond with us through email, we may retain the content of the email messages that you send to us together with your email address and our responses to you.

Location Information

By using the Internet to use our Website or Mobile Application, you will likely automatically transmit data to our servers about the location from which you are accessing our Website or Mobile Application (you can sometimes adjust what information you transmit by adjusting the settings on your devices and browsers). Jump Start Stores uses location services and information about the location from where you are using the Mobile Application to deliver to you offers from Merchants that are located in your geographic area. In addition, when a User redeems a coupon using the Mobile Application, geolocation data regarding the User's location at the time of redemption is sent to Jump Start Stores and stores this geolocation data. Jump Start Stores does NOT share with any third party any location data that we collect.

2. Generic Information

Similar to other commercial websites, our website may from time-to-time utilize a standard technology called "cookies" (see explanation below, "What Are Cookies?") and web server log files to collect information about how our website and Mobile Application are used. Information gathered through cookies and web server logs may include the date and time of visits, the pages viewed, time spent at our website or on our Mobile Application, and the websites visited just before and just after our website.

If you are using our Mobile Application, we may also collect certain information automatically, including, but not limited to, the type of mobile device you use, your mobile devices unique device ID, the IP address of your mobile device, your mobile operating system, the type of mobile Internet browsers you use, and information about the way you use the Application.

How Do We Use the Information That You Provide to Us?

Broadly speaking, we use personal information for purposes of administering our business activities; providing the products and services you requested; to process your payment; to monitor the use and success of the service, our marketing and promotional efforts; to improve our content and service offerings; and to customize our website's and Mobile Application's content, layout, and services; and for other lawful purposes. These uses improve our website and our Mobile Application and better tailor each to meet your needs.

Personally identifiable information or business information will not be shared with parties except as required by law. Information that is not-personally identifiable may be shared with others on an aggregate basis that preserves user anonymity.

Occasionally, we may also use the information we collect to notify you about important changes to our website, new services, and special offers we think you will find valuable. You may notify us at any time if you do not wish to receive these offers by emailing us at the link provided on the newsletter.

What Are Cookies?

A cookie is a very small text document, which often includes an anonymous unique identifier. When you visit a website (whether from a computer or mobile device), that site's computer asks your computer or mobile device for permission to store its cookies file in a part of your device's hard drive specifically designated for cookies. Each website can send its own cookie to your browser if your browser's preferences allow it, but (to protect your privacy) your browser only permits a website to access the cookies it has already sent to you, not the cookies sent to you by other sites. Browsers are usually set to accept cookies. However, if you would prefer not to receive cookies, you may alter the configuration of your browser to refuse cookies. If you choose to have your browser refuse cookies, it is possible that some areas of our site will not function as effectively when viewed by the users. A cookie cannot retrieve any other data from your hard drive or pass on computer viruses.

How Do We Use Information We Collect from Cookies?

As you visit and browse our website, the site uses cookies to differentiate you from other users. In some cases, we also use cookies to prevent you from having to log in more than is necessary for security. Cookies, in conjunction with our web server's log files, allow us to calculate the aggregate number of people visiting our Website and which parts of the site are most popular. This helps us gather feedback to constantly improve our Website and better serve our clients. Cookies do not allow us to gather any personal information about you and we do not intentionally store any personal information that your browser provided to us in your cookies.

IP Addresses

IP addresses are used by your computer every time you are connected to the Internet. Your IP address is a number that is used by computers on the network to identify your computer. IP addresses are automatically collected by our web server as part of demographic and profile data known as "traffic data" so that data (such as the web pages you request) can be sent to you.

Do Not Track

Neither the Website nor the Mobile Application respond to Do Not Track signals.

Sharing and Selling Information

We do not share, sell, lend or lease any of the information that uniquely identifies a subscriber (such as email addresses or personal details) with anyone except to the extent it is necessary to process transactions or provide services that you have requested. Opt in data and consent will not be shared to third parties / affiliates.

What About Legally Compelled Disclosure of Information?

We may disclose information when we, in good faith, believe that the law requires it or for the protection of our legal rights or when otherwise compelled by law to do so. We may also disclose account information when we have reason to believe that disclosing this information is necessary to identify, contact, or bring legal action against someone who may be violating our Terms of Service or to protect the safety of our users and the public.

What About Other Web Sites Linked to Our Web Site?

We are not responsible for the practices employed by websites linked to or from our website or the information or content contained therein. Often links to other websites are provided solely as pointers to information on topics that may be useful to the users of our website.

Please remember that when you use a link to go from our website to another website, our Privacy Policy is no longer in effect. Your browsing and interaction on any other website, including websites that have a link on our website, is subject to that website's rules and policies. Please read over those rules and policies before proceeding.

Your Consent

BY USING OUR WEBSITE OR MOBILE APPLICATION, YOU CONSENT TO OUR COLLECTION AND USE OF YOUR PERSONAL INFORMATION AS DESCRIBED IN THIS PRIVACY POLICY.

Our Commitment To Data Security

Please note that your information will be stored and processed on our computers in the United States and consistent with United States privacy protection standards. The laws on holding personal data in the United States may be less stringent than the laws of your country of residence or citizenship. To prevent unauthorized access, maintain data accuracy, and ensure the correct use of information, we have put in place appropriate physical, electronic, and managerial procedures to safeguard and secure the information we collect online. Please be aware that, although we endeavor provide reasonable security for information we process and maintain, no security system can prevent all potential security breaches. Please also be aware that it is your responsibility to keep your electronic devices secure. We therefore recommend that you do not jailbreak or root your phone, which is the process of removing software restrictions and limitations imposed by the official operating system of your device. It could make your phone vulnerable to malware/viruses/malicious programs, compromise your phone's security features and it could mean that the Website or Mobile Application will not work properly or at all.

Information Deletion

If a time comes where we no longer need to possess information that we collected about you or that you have provided to us (e.g., if you cancel your subscription and the subscription term has expired), we will delete or destroy the information within a reasonable time after our need to possess it has ceased.

Surveys & Contests

From time to time, our site requests information from users via surveys or contests. Participation in these surveys or contests is completely voluntary and the user therefore has a choice whether to disclose this information. Information requested may include contact information (such as name and shipping address) and demographic information (such as zip code, age level, etc). Contact information will be used to notify the winners and award prizes. Survey information will be used for purposes of monitoring or improving the use and satisfaction of this website.

A Special Note About Children

We do not use our website or our Mobile Application to knowingly solicit data from or to market to children under the age of 14. Children are not eligible to use our services unsupervised and we ask that children under the age of 14 do not submit any personal information to us. If you are a minor, you can use this service only in conjunction with permission and guidance from your parents or guardians.

If a parent or guardian becomes aware that his or her child has provided us with information without their consent, he or she should contact us using the contact information provided at the end of this Privacy Policy. We will delete such information from our files within a reasonable time.

Acquisition or Changes in Ownership

In the event that our website (or a substantial portion of its assets) is acquired, your information would be considered part of those assets, and may be part of those assets that are transferred.

Policy Modifications

This Privacy Policy is effective as of 2026. However, we may change this Privacy Policy from time to time. If/when changes are made to this Privacy Policy, we will email users who have given us permission to do so. We will post any changes here, so be sure to check back periodically. However, please be assured that if the Privacy Policy changes in the future, we will not use the personal information you have submitted to us under this Privacy Policy in a manner that is materially inconsistent with this Privacy Policy, without your prior consent.

Contact us

If you have any questions regarding privacy while using the Application, or have questions about our practices, please contact us at:
